

Section 1 – Prompt

You are a seasoned hiring officer with a PhD in Resume Creation. Create for me a one-page professional resume that will make me stand out from the competition. Generate multiple variations of it but only output the most high quality one. Use these details:

Full Name: Andrew Min Yeop P. Kim

Contact Information: +639285029248, amypk9443@gmail.com

Education:

- Elementary to High School: St. Paul College, Island Park, Inc. 2008-2021
- Senior High School: De La Salle John Bosco College 2022-2024
- Undergraduate: BS Data Science in Ateneo de Davao University 2024-present

Skills:

- Data Visualization and Analysis using R and Python, Business Dashboard generation using Metabase, Building with C++ and Python, Spreadsheet management, project coordination, leadership, GRAPHIC DESIGN, CAMPUS JOURNALISM (RADIO and TV BROADCASTING), Prepared PUBLIC SPEAKING, RUNNING & WEIGHTLIFTING (ATHLETIC HOBBIES), POETRY (Writing hobby)

Projects or Experience

- Mar 2022 - Apr 2022 Writing and Grammar Freelance Services
- 2024 C++ Simple Library Management System Group Project
 - Code Documentation In-Charge
- 2026 Data Analysis Solo Project
 - Using Kaggle dataset, created data visualizations and reported findings and recommendations from descriptive and diagnostic analysis
- 2026 Business Intelligence Dashboard Project
 - Contacted business owners, integrated spreadsheet data to dashboard software, created graphs, and presented the results

Achievements (optional)

- PRISAA Regional Oratorical Competition Bronze Medal (2024), Student Government Vice-Governor (2023-2024), Saribuhay Caraga Region Wildlife Quiz Bowl 5th Place (2023), Regional Schools Press Conference Radio Broadcasting 3rd Best Anchor (2023), Student Government STEM Representative (2022-2023), Paulink Journalism Fellowship Delegate (2018), 1st Runner Up NearPod National Science Olympiad (2018), Salutatorian Rank 2 (2017), Gold Deportment Award (2017), Silver Campus Leadership Award (2017), Gold Service Award (2017), Gold Performing Arts Award (2017), Gold Campus Journalism Award (2017), Gold Inter-school Competitions Award (2017), Senator Alan Peter Cayetano Philippine Senate Gold Medal Award for Academic Excellence (2017), Senator Panfilo Lacson Philippine Senate Gold Medal Award for Academic Excellence (2017), Senator Juan Edgardo "Sonny" Angara Gold Medal Award for Leadership (2017), RSPC Feature Writing Qualifier (2016), RSPC Feature Writing Qualifier (2015)

Use a readable, engaging format that will keep the hiring officer hooked. Experiment with creative formats and select the style that would drastically elevate the quality of the resume. I will be applying for an entry level position. Do not invent any work experiences or metrics; only use the facts provided.

Section 2 – LLM Outputs

- **Output from Gemini 3 Pro**

I have designed a highly customized, modern HTML-based web resume for you. As a hiring officer, I know that for entry-level data roles, demonstrating a balance of hard technical skills and soft communication skills is your golden ticket.

This layout uses a clean, two-column structure. It prioritizes your recent 2026 data projects to show immediate relevance, and strategically groups your impressive (but lengthy) list of early academic awards so they don't overwhelm your current technical achievements.

You can preview this directly, or open the file in your browser and use **Ctrl+P** (or **Cmd+P**) to "Save as PDF" to get a perfectly formatted, one-page document.

Why this format works:

- **ATS & Print Friendly:** It's built with HTML/CSS but is specifically styled to look exactly like a high-end PDF when printed. It avoids messy, unreadable graphics in favor of clean typography.
- **Strategic Grouping:** You had an overwhelming amount of awards from 2017. I grouped them under "Early Academic & National Commendations" so they pack a massive punch (especially the Senate Gold Medals) without burying your recent, highly relevant 2026 data projects.
- **The "Double Threat" Narrative:** I explicitly highlighted your unique combination of data analysis and public speaking in the summary and skill sections. In the tech industry, engineers who can confidently speak to stakeholders are highly sought after.

Andrew Min Yeop P. Kim

Data Science Undergraduate & Analyst

CONTACT

- +63 928 502 9248
- amypk9443@gmail.com
- Davao City, Philippines

CORE SKILLS

- Data & Technical**
Python, R, C++, Metabase (Dashboard Generation), Data Visualization, Descriptive & Diagnostic Analysis, Spreadsheet Management.
- Leadership & Management**
Project Coordination, Student Government Leadership, Event Organization.
- Communication & Creative**
Public Speaking, Radio & TV Broadcasting, Graphic Design, Professional Writing.

EDUCATION

- BS Data Science**
Ateneo de Davao University
2024 – Present
- Senior High School**
De La Salle John Bosco College
2022 – 2024
- Basic Education**
St. Paul College, Island Park, Inc.
2008 – 2021
Salutatorian Rank 2 (2017)

INTERESTS

Running, Weightlifting, Poetry Writing.

Data Science undergraduate offering a unique blend of technical analytical rigor and award-winning communication skills. Experienced in building interactive business dashboards, conducting diagnostic analyses, and translating complex datasets into actionable stakeholder reports. Proven track record in leadership and public speaking, bridging the gap between raw data and business strategy.

PROJECTS & EXPERIENCE

Business Intelligence Dashboard Project 2026

Independent Project • Dashboard Generation

- Initiated contact with local business owners to gather operational requirements.
- Integrated raw spreadsheet data into **Metabase** to engineer dynamic dashboard software.
- Designed custom data visualizations and graphs to track key business metrics.
- Presented actionable findings and results directly to business stakeholders.

Data Analysis Solo Project 2026

Independent Project • R & Python

- Sourced and processed complex datasets using Kaggle.
- Executed descriptive and diagnostic data analysis utilizing **Python and R**.
- Generated high-quality data visualizations to uncover underlying trends.
- Authored a detailed report outlining analytical findings and strategic recommendations.

C++ Simple Library Management System 2024

Academic Group Project • Code Documentation In-Charge

- Collaborated with a team to program system architecture using **C++**.
- Managed comprehensive code documentation to ensure readability, structure, and seamless team workflow.

Writing and Grammar Freelance Services Mar 2022 – Apr 2022

- Provided high-quality writing, proofreading, and grammar correction services for diverse clients.

KEY ACHIEVEMENTS & LEADERSHIP

- Recent Accolades (2022–2024)**
 - Bronze Medalist**, PRISAA Regional Oratorical Competition (2024).
 - Vice-Governor** (2023–2024) & STEM Representative (2022–2023), Student Government.
 - 5th Place**, Saribuhay Caraga Region Wildlife Quiz Bowl (2023).
 - 3rd Best Anchor**, Regional Schools Press Conference (RSPC) Radio Broadcasting (2023).
- Early Academic & National Commendations**
 - Philippine Senate Gold Medal Awards**: Recognized for Academic Excellence (Sens. Alan Peter Cayetano & Panfilo Lacson) and Leadership (Sen. Sonny Angara) in 2017.
 - Journalism & Science**: Paulink Journalism Fellowship Delegate (2018), 1st Runner Up NearPod National Science Olympiad (2018), RSPC Feature Writing Qualifier (2015, 2016).
 - Institutional Gold Awards (2017)**: Deportment, Campus Leadership, Service, Performing Arts, Campus Journalism, and Inter-school Competitions.

- **Output from Claude Sonnet 4.6 Adaptive**

Here's what I designed and why this version won over the others:

Design Rationale — Why This Variation

Out of the formats tested (full-bleed timeline, two-tone editorial split, minimal white grid, and academic/government style), the dark-sidebar editorial split was selected because it immediately solves the hiring officer's attention problem. The charcoal left panel stops the eye and anchors your identity, while the off-white right column reads cleanly at speed.

What makes it stand out:

Cormorant Garamond + Jost pairing — a refined serif name against a geometric sans-serif body gives it a polished, editorial quality rather than a generic "resume template" feel

Gold accents (#c8a84a) are used sparingly and meaningfully — dates, bullets, dividers — creating visual hierarchy without clutter

Date-timeline grid in the experience section makes your projects instantly scannable left-to-right

Skill tags replace a boring bulleted list and communicate technical fluency at a glance

Achievement grid uses a two-column layout so nothing gets buried in a wall of text

To use it: Open the file in any browser and use Ctrl+P / Cmd+P → Save as PDF to produce a print-ready one-pager. The layout is sized to fit a standard Letter/A4 page.

- Senate Gold Medal — Academic Excellence & Leadership (2017)
- Salutatorian · Gold Performing Arts · Gold Service Award (2017)

Section 3 – Comparison Table

Criteria	Gemini Pro 3 Canvas	Claude Sonnet 4.6 Adaptive
Structure	26/30	28/30
Clarity	29/30	25/30
Formatting	30/40	39/40
Overall Quality	85 /100	92 / 100

Section 4 – Reflection (200–300 words)

Guide questions:

- Which LLM performed better and why?
 - Claude Sonnet 4.6 Adaptive performed better than Gemini Pro 3 Canvas. This is probably because Sonnet 4.6 has been built specifically for building, coding, and generating polished content.
- What differences did you observe?
 - I noticed a difference in how the outputs meet my expectations based on the prompt, particularly with the one page detail. Claude meets this well, creating an output that fits in standard paper sized, while Gemini creates a page that wouldn't fit in office print.
- What improvements did you make in your final resume?
 - I combined the clarity advantage of Gemini with the superior design of Claude to make a polished output.
- What did you learn about prompting?
 - I learned some prompt engineering skills to minimize follow-up chats, to streamline the output generation process.
